THE MOST SCIENTIFIC EXPOSITION OF AMERICAN JURISPRUDENCE.

"It is a good service to our legal literature to make these famous lectures again accessible."—J. Bradley Thayer of Harvard Law School.

"I am very glad that Justice Wilson's works have been reprinted. He was the real founder of what is distinctive in our American jurisprudence, and his arguments for the reasonableness and practicability of international arbitration were a century ahead of his time."—Hon. The Art of Winning Cases

Or Modern Advocacy.

By Henry Hardwicke, of the New York Bar.

In this work the author has given many valuable suggestions upon preparations for trial, and the conduct of cases in court. He has not confined himself to a bare statement of the rules which should guide the advocate in the trial of cases, but he has shown how Erskine, Scarlett, Daniel Webster, Rufus Choate, Henry Clay and many other great English and American advocates have put these rules into practice.

. . TABLE OF CONTENTS . .

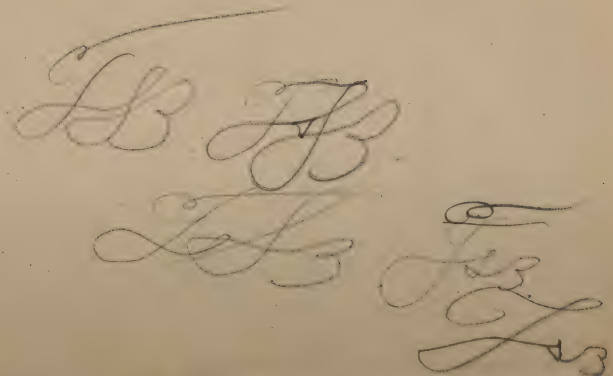

Chapter I—Preparation for Trial.
Chapter II—The Statement of the Case.
Chapter III—Examination in Chief.
Chapter IV—Cross-Examination of Witnesses.
Chapter V—Re-Examination of Witnesses.
Chapter VI—Forensic and Popular Oratory.
Chapter VII—The Address to the Court
Chapter VIII—Suggestions to Young Lawyers.

PREFACE.

This little book is prepared to fill a "long felt want"—a pressing necessity on the part of the publisher for cash. If it fills its mission I shall feel highly gratified. But aside from the kindly feeling which the publisher has entertained for himself, it is well for the students to remember that this publication is only made possible through the kindness of the business men who advertise with us; hence you will be conferring a favor upon yourselves by patronizing only those whose ad. appears in the following pages.

Mistake is incident to life. In fact many people are nothing other than colossal mistakes. To this class the publisher belongs; therefore, for the mistakes that may appear in this book please reserve your censure till you understand the difficulties under which one labors in the preparation of a work of this kind.

The Gabriel Tailors for Swell Suits.

A Short Horse

Is soon curried—a short tale soon told.

We make old clothes as good as new, and at trifling prices.

Why buy new clothes, and pay much money, when what you have will look like new. Have them dyed and cleansed and pressed. We do the work. We do it well. Try us.

Two Points To Remember

The intending purchaser of dentists' supplies will do well by himself if he keeps in mind these two facts:

1. That the instruments and appliances which bear the trade —SS—mark are of the highest quality known to dentists. They mark the standard by which others are measured.

2. That the buyer of our products is assured of getting 100 per cent. of first-quality goods. We do not sell "defectives" or "seconds". Our system of inspection and tests is so thorough that the slightest defect is discovered, and the defective is rigorously consigned to the scrap-heap.

"Help to Health and Purity"

IS WORTH ITS WEIGHT IN GOLD

TO YOUNG MEN.

The "Specialist," or "Fake" Advertiser Exposed. It Deals with the Sexual Life of Men from the Standpoint of Common Sense and Nature.

Dr. C. S. CARR, Editor "Medicel Talk," in reviewing the book, says: "If any young man . . . has been persuaded by some doctor through correspondence that he is a victim of a wasting malady that is draining away his vitality . . . let him stop right where he is and get this book. A million copies ought to be sold in the next six months."

Los Angeles Times says: "It ought to be circulated by the hundreds of thousands among men. It is a book not written for revenue, but for the philanthropic purpose of warning young men against unscrupulous quacks." This book contains 56 chapters. Cloth, 50c.

This issue of the Students' Directory contains all the addresses to be found in the Registrar's office, October 20, 1910. As many changes as it was possible to obtain from other sources have been made. Mistakes or omissions as to addreses are due to the carelessness of students in making out their study lists; a little more care on the part of the students would add to the correctness of future issues of the Students' Directory.

WHAT'S IN A NAME? NOTHING

if it's only a name. If the name stands for something, then there is much in a name.

The name "RELIABLE," under which our firm has done business for several years, stands for RELIABLE material, RELIABLE workmanship, RELIABLE prices, in fact RELIABLE service from the time we enter your order until the work is completed, the bill made out, and receipted; and it is then that you begin to appreciate fully what RELIABLE means, for the results continue long after the bill is paid and forgot'en.

Made to Measure Clothing

Ours is acknowledged the largest tailoring house in Central Illinois.

Our mighty business is the result of almost twenty years successful tailoring to discriminating tastes.

Ready-to-Wear Clothing

Like a huge magnet our establishment attracts the multitude of students.

High quality and moderate price is the drawing power to which the student's taste for the eminently good responds.

Our Furnishings Department is most complete in its appointments. Here, too, quality reigns.
